Serial No. 10/728,966

AMENDMENTS TO THE CLAIMS

1. (Original): A clitoris stimulator, comprising:

A) electrically driven vibrating means; and

B) clip means for removable attachment to the vaginal labia of a user, said clip means being mounted to said vibrating means so that said vibrating means is kept in contact with the user's clitoris.

2. (Currently amended): The stimulator set forth in claim 1 wherein said dip means includes fist first and second spring biased arm members cooperatively mounted to said vibrating means to provide sufficient gripping action against predetermined areas of said vibrating means.

3. (Currently amended): The stimulator set forth in claim 2 wherein said clip means includes a rigid curved plate with a central portion, first and second ends, said central portion being rigidly mounted to said vibrating means and said first and second ends being kept at a spaced apart relationship with respect to said vibrating means so that said first and second arm members cooperate with said first and second ends to provide sufficient grip action e-to a user's vaginal labia to keep said stimulator in place.

4. (Currently amended): A clitoris stirrulator, comprising:

23

Serial No. 10/728,966

1			
2	A)	electrically driven vibrating means;	
3			
4	B)	tubular holder means for remobable removably receiving said	
5		vibrator means; and	
6			
7	C)	clip means for removably attachment to the vaginal labia of a	
8		user, said clip means being mounted to said holder means.	
9			
10	5.	(Original): The stimulator set forth in claim 4 wherein said clip	
11	mea	means includes first and second spring biased arm members	
12	coop	cooperatively mounted to said vibrating means to provide sufficient	
13	grip	gripping action against predetermined areas of said vibrating means.	
14			
15	6.	(Original): The stimulator set forth in claim 5 wherein said clip	
16	mea	means includes a rigid curved plate with a central portion, first and	
17	seco	second ends, said central portion being rigidly mounted to said	
18	vibr	vibrating means and said first and second ends being kept at a	
19	spac	spaced apart relationship with respect to said holder means so that	
20		said first and second arm members cooperate with said first and	
21	seco	second ends to provide sufficient grip action on user's vaginal labia	
22	to k	to keep said stimulator in place.
